### CUBANS IN DISTRESS.

General Nunez Thinks Their Sufferings Will Increase.

Washington, Sept. 5.—General Nunez of the Cuban army has returned to Wash-ington, having been on an expedition which took supplies to the Cubans. He Cincinnati, Sept. 5.—Commander in left this country before the war was closed and landed at several points and closed and landed at several points and delivered his supplies. General Nunez reports a great deal of distress among the Cubans, and says it will be still greater on account of the Inability of the Cubans to forage and raid various places where they formerly obtained supplies.

General Nunez says that one reason why the Spaniards are making it difficult to supply food to the Cubans is that they want to compel the latter to take the provisions by force, and thus create disturbances and trouble, stir up strife between the Americans and Cubans, which will tend to discredit them. The Spaniards are willing food should be given to their immediate people, but do not want it taken to the Cubans, says the general.

Several Labor Strikes Have Already Occurred-New Toriff.

Manila. Philippine Islands, Sept. 5.—
There have been several labor strikes here, the demand being for excessive wages. Because the American authorities in the early exigencies of the simulation here, agreed to the extravagant demands of the laborers, it has been difficult to return to an equitable basis. One of these strikes caused the suspension of traffic on the transways of Manila for three days.

# MILLION FOR THE SAILORS

AMOUNT OF PRIZE MONEY TO BE DISTRIBUTED.

Sampson Will Get \$40,000 and Dawey One-fourth as Much-Amount Earned at Santingo.

New York, Sept. 5.-A dispatch to the Herald from Washington says: At least \$1,000,000 prize money will be distributed among American sailors as a result of the war with Spain. More than one-half of this amount will be paid in accordance with that section of law providing for the payment of a bounty for screens on board vessels of war sunk in action. The remainder will be turned into the treasury, for distribution by the courts which shall pass upon vessels of the enemy captured by American men-of-war.

upon vessels of the enemy captured by american men-of-war.

Although not a penny of prize money has yet been turned into the treasury. Judge Advocate Lemley and his chief clerk, Mr. Hanna, are engaged in considering the various claims for prize money which have been filed by officers and men, and in passing upon the various cuestions which have arisen in connection with such claims. From the official report of Admiral Montojo, commanding the Spanish fleet sunk at Manila, there were 1,875 persons on board the ships of his command. The Spanish fleet was of inferior force to the American squadron, and Rear Admiral Dewey's men will get only \$100 for each person. It is estimated the aggregate amount due the Asiatic squadron as the result of the Spanish war amounts to \$187,500, which congress will be asked to appropriate during the coming session. One-twentieth of this sum belongs to Rear Admiral Dewey as comander-in-chief, and he will, therefore, be \$2,375 richer than he was before the war.

Rear Admiral Sampson has realized a snug little fortune as a result of the war. As commander-in-chief of the North Atlantic feet, he will get one-twentieth of every prize taken in North Atlantic waters, and one-twentieth of the head money allowed for the vessels.

Atlantic waters, and one-twentieth of the head money allowed for the vessels destroyed off Santiago and in Cuban ports. It is estimated that he will fin-ally receive about \$10,000 as his share of

ally receive about \$40,000 as his share of prize money.

In determining the amount of head money due officers and men, it will be necessary for the department to decide whether a vessel destroyed is superior or inferior to her antagonist. If the latter, the American ship will be entitled to \$200 for each person on board the enemy. Of course this will swell the amount of prize money due the rear admiral.

It is estimated that, including the

It is estimated that, including the Mercedes, sunk by the Massachusetts at the mouth of the Santiago harbor, there were 2,452 persons on board the Spanish fleet destroyed by Rear Admiral Samoson's command, which was superior to the enemy, and the amount of head money due the fleet will consuperior to the enemy, and the amount of head money due the fleet will, consequently aggregate \$249,280.

Besides these ships, Spanish men-of-war were sunk at Manzanille, Nipe and other points along the Cuban coast, the destruction of each of which means prize money for the officers and men barticing in the work.

prize money for the officers and men participating in the work.

Legal officers of the department will be required to determine whether merchant vessels carrying guns in their hold, like the Santo Domingo, which was sunk by the Eagle, come within the meaning of the section providing for the payment of bounties for persons on board. The result of these questions will be to delay the adjudication of the amounts due to officers and men interested.

men interested. The navy department was notified few days ago by Judge Locke of Flor-ida that he would turn into the treas-ury the net amount resulting from the sale of the cargo of coal on board the British tramp steamer Restormel. The

notification was subsequently with-drawn by Judge Locke. The Restor-mel's case is the furthest advanced of any of the prizes.

Owners of the great majority of the owners of the great happens of the captured vessels have taken appeals from the courts which have condemned their ships as prizes, and it will be many months before the supreme court is able to pass upon them.

### CHAPLAIN COURTMARTIALED.

Claimed Credit For the Oregon and Abused Bob Evans.

Washington, Sept. 5 .- Ever since the printed reports of the utterances of the naval chaplain, Joseph P. McIntyre, reached the navy department, the officials have been making a quiet inquiry into the accuracy of the newspaper publications. The chaplain, who was attached to the Oregon, and was on board when the battle of July 3rd was fought, was accredited with some savage criticism of Admiral Sampson, Captain Evans and various other officers and men of the American fleet, insisting that to the officers and men of the Oregon alone belonged the victory achieved over the Spanish squadron. He was particularly severe on Captain Evans, who he charged with cowardice. Apparently the navy departtain Evans, who he charged with cow-ardice. Apparently the navy depart-ment has now satisfied itself that the chaplain really uttered the language as-cribed to him, for it has ordered his trial by courtmartial on charges to the prejudice of good order and dis-cipline and conduct unbecoming an officer. The chaplain is now on a leave of absence in Denver.

It is a document of about 2,000 words and is a remarkable specimen of penmanship. The second clause of the will has reference to the funeral arrangements, and says:

"Commending myself to the infinite mercies of God in the incarnate Son as my only and sufficient hope, I leave the particulars of my burial to my executors, specifying only that they be very simple and private, unless there be conclusive reasons to the contrary. And I desire to be buried where my wife may also lie. On no account shall a laudatory inscription be placed over me."

over me."

After appointing his sons as executors, the will charges the future possessor of Hawarden to remember that as the head of the family, it will be his duty to extend good offices to other members thereof, according to his ability and their manifest needs and mer-

its.

The rest of the document leaves souvenirs to servants and bequeaths to his grandson. William, as heirlooms, all patents of crown offices heid by the testator and books and prints presented to him by the queen, letters from the queen, etc. The will bears date Nov. 26, 1896.

Tribute to Shafter.

New York, Sept, 5.—General Pando was feeling well at the Hotel America today and for about two minutes he submitted to an interview by newspaper reporters. The first thing he had to say was that a misunderstanding had gone abroad about his ertitism of General Shafter. He declared that he thought General Shafter an able general, and he doubted if any other man could have brought the Santiago campaign to such a speedy close with such little bloodshed.

General Pando also took occasion to deny the story about his duel in Mexico, He said that he did not even know such a person as he had been represented as fighting with.
